Notlad Wreck

Regretted by All.

The wreck of the fishing boat Notlad is one of those sad events that come to every fishing community occasionally. Prince Rupert has been singularly free from fatal accidents and as a result the present is the more impressive. It again brings to notice the risks attendant on the calling of the fisherman and is one reason why it should be a remunerative business.

The Daily News wishes to join with the rest of the community in expressing sympathy with those who are today wondering whether or not to mourn as lost the men who faced the dangers of the deep. We can ill afford to lose the fine men who every day go out to gather the fish harvest. It is to be hoped that even yet the missing men may be found, although we have to admit that the outlook is not encouraging.

Good Work in

Publishing Book.

The Dominion Government department of health has sent out a most useful little book entitled "The Canadian Mothers' Book," mention of which is made elsewhere. It is one of the first fruits of the establishment of a department of health at Ottawa and the Government is to be commended for the excellent work and the department officials for carrying out the detail. It is something new in this country but is a move in the right direction.

There is such lamentable ignorance among so many of the young people who undertake the serious duties of life that anything which can be done to educate them is worthy of commendation. The health department has made a good beginning and it is much to be desired that they keep up the work. The next important move to the publishing of the book is providing for its circulation. It might be a good thing to let every clergyman have a supply and make it compulsory for him to distribute them to the young couples on their wedding days, or possibly it might go as part of the wedding certificate.

Deplorable Condition Regarding Fish Cars.

There is a deplorable condition in regard to fish cars. The information received today by the Canadian Fisheries Association will certainly make the people of Prince Rupert stop and think. It looks to us as if this port never occupies more than a passing thought in the minds of the people at the head of affairs. Happily we have friends at court and our cause is being taken up with vigor. We hope that we shall yet secure that degree of attention which is our due.

Clergy Disappoints Many Followers.

Many of those who were putting their faith in the farmers' party, now called the National Progressives, as the one that would lead them along lines of radical legislation, are disappointed to find that Hon. T. A. Crerar, the leader of the party, believes in private enterprise wherever possible and not in government ownership. He apparently agrees with many of the older statesmen that the least governed country is often the best governed. What we want to see is the people getting out and doing things for themselves instead of eternally harking back to the Government for aid.

Unfortunately in so far as Prince Rupert is concerned we have to look to the Government for our railway and port development, because the Government owns the railways and it is the duty of the Dominion Government to build wharves and other shipping facilities everywhere throughout the country. We also look to the Provincial Government to provide us with facilities for the carrying on of the business of the province in this district such as the new Government Buildings. These matters are incidental. What we want is to develop our own district as much as possible. Encourage private enterprise and not depend on the work the Government brings to make us a livelihood.

PRINCE RUPERT TIDES

Thursday, March 17.
 High, 6:50 a.m., 18.5 feet.
 20:16 p.m., 16.1 feet.
 Low, 0:23 a.m., 9 feet.
 13:51 p.m., 6.2 feet.

Friday, March 18.
 High, 8:15 a.m., 18.1 feet.
 21:29 p.m., 16.9 feet.
 Low, 1:43 a.m., 9.3 feet.
 15:13 p.m., 5.9 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

KRONSTADT PAPER
SAYS TROTSKY IS
THE SOUL KILLER

STOCKHOLM, March 16.—A new revolutionary newspaper, the Kronstad, has appeared at Kronstad. It publishes an energetic resolution passed by the soldiers of the fortress, appealing to the leaders to hold fast.

"The people have had enough of Communist yoke," says the newspaper. "The soul killer, Trotsky, must be told that we are not frightened by his threatening proclamations thrown down by aeroplanes on their way to Kronstad. Our hearts go out over our corpses. We have made up our minds to conquer or die. Down with the blood-thirsty Trotsky and his followers."

GIANT OCTOPUS-TOWS
BOATS FORTY MILES

PALM BEACH, Fla., March 16.—Florenz Zeigfeld, Jr., and J. Leonard Neopige battled for eight hours with a giant ray, or devil fish, that towed two boats forty miles from Palm Beach and 17 miles to sea and then escaped when the cables broke, although its body bore four harpoons, eight rifle bullets and fifteen wounds from lances. The sea monster was in sight of the bathers near the breakers' pier, when discovered. Harpoons were thrown into the monster which immediately sped away and escaped when the lines parted. Airplanes followed the boats and watched the struggle.
