Crosby Indian Girls' School at Simpson is Destroyed by Fire

Building Housed Eight Teachers and Forty Children and was Valued at \$25,000; Belonged to Methodist Mission Board

PORT SIMPSON, January 25.—The Crosby Indian girls' school was completely destroyed this morning by fire which originated in the basement. All the personal belongings of the eight teachers and the forty girls under Miss S. M. Deacon, principal, were lost in the sudden destruction of the school. The building is valued at \$25,000 and, it is believed, is partially covered by insurance.

The Crosby school is one of the oldest and best known Indian schools in the province. It was established over twenty-five years ago and belongs to the Methodist Church Mission Board and is subsidized by the Department of Indian Affairs. It was used as a residential school for girls exclusively.

The building itself was a substantial and commodious frame structure in an ideal location. The teachers and pupils are now scattered in various parts of the village and much hospitality and sympathy is being extended by the people of Port Simpson.

City Taking Steps Towards Cameron Cove Settlement

Committee Appointed by Mayor will Draft Proposals to Place Before Railway Board and Provincial Government

After a lengthy discussion last evening, the city council decided to have a special committee appointed by the mayor draft letters for the Board of Railway Commissioners and the Provincial Government setting forth the city's stands and demands towards a settlement of the Cow Bay dispute.

The council resolved itself into committee of the whole with Alderman Kerr in the chair. Each of the aldermen entered into the discussion and the feeling that the filling of Cow Bay be allowed providing that suitable and adequate waterfrontage be given the city by the Provincial Government in lieu of its riparian rights in Cow Bay was endorsed.

The question, as far as the city is concerned, now resolves itself into what "suitable and adequate" waterfrontage amounts to.

Rival Plans.

The old plan of the railway company of July 3, 1917, was condemned unanimously as a basis of negotiation while the Board of Trade plan of last summer was looked upon favorably. Mayor Rochester stated that, although he was at first opposed to the

Rochester's weekly dance provided a great success last night, Howard White's quartette provided the music and about fifty couples attended.

TO THROW OPEN SOLDIER LANDS ON MAY 1 NEXT

Order in Council Passed Allowing Civilians to Take up Parcels Not in Use.

OTTAWA, January 25.—By an order in council approved on Friday the reservation for soldiers' settlement of all Dominion lands in the western provinces within a radius of 15 miles of a railway will be terminated on May 1 with the exception of land in the Porcupine forest reserve, the Riding Mountain reserve, the Hudson's Bay reserve, the Donkin forest reserve, or individual parcels reserved for the purpose of dealing with cases of soldiers which are still pending.

After May 1, civilians may acquire these lands within the radius stated but soldier settlers will be given one day priority.

CRACKS IN WALLS AND FLOORS OF NEW MANITOBA BUILDINGS

WINNIPEG, Jan. 25.—New cracks are developing in the walls and floors of the new parliament building, due to faulty construction of extensions under the structure. S. C. Oxton, deputy minister of public works, said today. The cracks are beneath the dome in the south wing of the building, while a minor crack has appeared in the northwest wing. Steps will be taken to repair the damages if the cracks continue to spread. The building settling has caused large limestone blocks and marble floors to crack. The cracks in some cases are ten to twenty feet long, but so far are not very wide.

Figures have been compiled by the department of public works for submission to the legislature dealing with the cost of the building, furnishings and grounds.

Furnishings

The appropriation of \$150,000 made by the legislature three years ago has not all been used for furnishings for the buildings. The cost of furniture for the whole building will not total much over \$145,000. Interest on bonds charged to cost of the building during construction will amount to \$1,125,000; work on the grounds will cost \$100,000, the site \$200,000, and with the estimated return from the Kelly Construction Company for faulty work on the building will bring the actual cost down to approximately \$5,000,000.

Work on the building has practically been completed with the exception of a few minor details. Architect's fees paid F. W. Simon will amount to \$250,000. Mr. Oxton said.

LONDON, Jan. 25.—Jews throughout the world were asked to consent to a form of self-taxation by tithes in the manifesto recently issued by the Palestine Foundation Fund, asking for \$125,000,000 for the reconstruction of Palestine.

The manifesto outlines a big program of irrigation, drainage, forestry, road making, bridge building and town planning which it says can be accomplished if the Jews of the world will tax themselves to produce the fund desired.

It adds that the purpose of the promoters is to enable immigration into Palestine to begin without delay and to provide for the economic development of the country. Thousands are waiting on the threshold of Palestine, it asserts.

There was a lot of ice in Portland Canal this trip and the John Ross could finally make a landing at Stewart. There is also a lot of snow at Stewart with much more in the surrounding hills.

DEAD MAN WAS FOUND IN COW BAY GAS BOAT

George Ross was Logger and Prospector and had been in Essondale Hospital

George Ross, a prospector and logger, aged about 56, was found dead in his bunk on his launch Harvest Home in Cow Bay yesterday morning and after a post mortem examination it has been decided that death was due to cardiac failure.

The discovery was made by John Toner, former owner of the Harvest Home, which he sold to the deceased.

The police were immediately notified and Chief Vickers personally instituted a preliminary examination. The body was removed to the B.C. Undertakers and burial will take place tomorrow.

From St. Catherine's

Later in the afternoon Warden Bailey went to the gasoline boat and collected the effects of the deceased. From letters found it appears that Ross was a native of St. Catherine's, Ontario, where a brother, John Boyce, now lives.

Ross left St. Catherine's thirty years ago and went to the southern States. Later he came to British Columbia and in 1913 was confined to the Essondale Mental Hospital. Evidently in 1919 he was released from Essondale and has since been in Bellingham and Atlin Inlet where he logged for the Whalen Pulp and Paper Co. About four months ago he bought the launch "Harvest Home" from John Toner.

It is thought that death occurred sometime on Saturday night or Sunday morning. Discovery was made when acquaintances missed him and on investigation being carried out the shocking discovery was made.

PROTEST AGAINST DEPORTATION OF CORK'S LORD MAYOR

WASHINGTON, Jan. 25.—Senator Phelan, Democrat, made public today a letter to Acting Secretary Davis of the State Department protesting against the deportation of Lord Mayor O'Callaghan of Cork.

Phelan said he thought it would be a blot on our escutcheon if we deported the Lord Mayor of Cork, both of whose predecessors were victims of the English policy of extermination and reprisal, and whose life, he was told, was also in grave danger.
