"Rosita"

A Spanish romance adapted by Edward Knoblock. The world's sweetheart, her beautiful curls of gold piled high on her head in an empire period coiffure, enters into her rightful heritage of glorious, vital, alluring womanhood in her characterization of "Rosita." Lithe and sinuous, gowned in the most gorgeous costumes, capricious and coquettish, beguiling and intriguing, the idol of men and women. Magnificent scenery and settings.

Holbrook Blinn, George Walsh, George Periolat, Frank Leigh, Irene Rich, and large cast.

Women:- listen to reason

The idea of thrift appeals to reasonable women who are helping to conserve the financial resources of the family pocketbook. Clothes conservationists are making use of our clothes saving facilities. Dainty Dorothy's talks have interested her sisters and the dry cleaning, remodeling and wearing of last season's clothes is popular and fashionable.

to behold and looks like a bear at a picnic in a coat of mud-colored paint shot with a dash of orange crush. Alex is undecided as to what his first exploit of the season will be but he will probably take a prolonged trip to Seal Cove and hunt for seals. The skipper thinks there is money in selling sealskin walking sticks for winter wear but first of all he has to get the seals, the sticks being very plentiful around the backyard. The admirality department of the Mosquito fleet have decided to clear Cow Bay of all craft the day that the Maeve pulls out as the wash from her propeller is likely to capsize something.

The steam launch Gunhild, under charter to the Pat McCulloch vaudeville troupe and which was recently seized owing to breach of contract by parties in the south over the purchase of the boat, is shortly to be released to the troupe again, the matter having been satisfactorily settled.

Two tanks are being built by the N. M. McLean shipyards for the P.B.C. Mining Co., carrying out gold mining operations on the Queen Charlotte Islands. The tanks will measure 8 feet in diameter and 5 feet deep. The mining operations take the form of extracting gold from the black sands of which there are many miles on the islands.

Frank Lockwood arrived in port this week aboard his power boat with a cargo of fur mostly mink. The fur found a local market.

The scow Jiggs arrived in port this week from the Wark Canal district.

The salmon packer Chief Zibassa, Capt. Bert Hanson, arrived in port on Wednesday from Hippo Islands with a large consignment of salmon.

Aberberg, Thomson & Co., Ltd., are installing a semi-deisel engine in the power boat Moresby, Capt. D. Douglas, to replace her present 30 horse power Union engine. The Moresby will engage in seine fishing for the Lowe Inlet cannery.

The power boat Suma is having a seine winch installed preparatory to working for the Sommerville cannery.

Dimension lumber to the amount of 350,000 feet will arrive over the week end for the Albert & McCaffery interests from Swanson Bay.

Skipper Charlie Starr was up as far as Khlada lake over last week end on a fishing expedition. The fish bites were all that could be desired and Charlie returned with a good basket of trout.

C. A. Kirkendall recently purchased the power runabout Pearl from J. D. Stone. Kirk made a run to Shawatlans Lake on Sunday and was pleased with the excellent manner in which the ten mosquito power engine behaved.

Hard Rowing

Having his good ship Sumner in port undergoing mid-season repairs and painting, Capt. Mingo thought it an expedient time to take the family and some friends for a little jollification to Shawatlans on Sunday last. The little old power boat being out of commission Cap commissioned a dory and piled high with happy faces and good things to eat, a fine voyage was made to the lake. The day was gloriously spent and all went exceedingly well until the return trip. While the dory did not carry the same gross tonnage, the oats having been demolished, the tide in the narrows had gained considerable momentum and Cap at the oars soon found that he had a tough job on hand to keep the craft headed for home. However, he stuck pluckily to his task and if brawn and muscle could beat the tide, Cap meant to do it. While the boat swirled around like a cork in Niagara Falls, there was not the slightest signs of worry or excitement on the part of the passengers while Cap's smile of confidence would have put happiness into the heart of a wooden idol. Just as the rowing was getting a little too arduous the good ship Surveyor, with Capt. Pete Lorenzen on the bridge, hove in sight and the alert brain of her skipper soon took in the situation. The Surveyor was quickly headed toward the dory and the orders rang out from the bridge for the bow man to throw a line to the picnickers. The line having been caught and made fast to the bow of the dory Capt. Mingo sat back with a smile of satisfaction that would have done justice to a Cheshire cat with eight saucers of milk. The Surveyor soon got under way again with the dory in tow and the happy party were safely landed. It is said that the Mosquito fleet admiralty officers have the matter of Pete's prompt action under review and it is on the cards the doughty skipper will be presented shortly with a book of Stroller cigarette pictures.

The Quitter

This is worth reading

The man who quits has a brain and hand
As good as next; but he lacks the sand
That would make him stick, with a courage stout,
To whatever he tackles, and fight it out.

He starts with a rush, and a solemn vow,
That he'll soon be showing the other how;
Then something new strikes his roving eye,
And his task is left for the bye and bye.

For the man who quits let's his chances slip
Just because he's too lazy to keep his grip.
The man who sticks goes ahead with a shout,
While the man who quits joins the "down and out."
