CANADIAN MAGAZINES ASKING PROTECTION.

Canadian Magazine publishers have a case before the Tariff Board asking for some measure of protection from what they term unjust and discriminatory competition of American magazines. the Woodbine at the Red Bluff, exposed While a duty on American magazines might not keep them out of the a mineral zone 80 feet in width. With country an imposition of such might well be considered and there the exception perhaps of the Big Misseems to be a good deal of virtue in the magazine publishers' case. | souri, this is the largest mineral out-

If you were a Canadian magazine publisher would you fight for crob to be seen in the Salmon River justice and fair play and expect every Canadian to support your section of Portland Canal. demand? Yes.

They allege that they are compelled to pay duties, sales taxes, income, business, property and other levies from which there is no escape, and that the government virtually bonuses their competitor by leaving them free to compete without paying one cent of any of these taxes.

These competitors, they say, have tremendous natural advantages, because of their own home market, that greatly and unfairly handicap the Canadian productions, while practically every industry woodbine. Kitchener, and woodbine in the country is protected in some way against unfair competition, Fraction claims, covering an area of they are left to struggle against the impossible odds and to suffer 64.14 acres. This group immediately from the dumping of foreign goods in the market.

They say they are suffering grave injustice and are entitled to 4 claims of the Premier Gold Mining adequate remedy.

INDUSTRY WHICH IS PUBLIC ASSET.

The magazine publishers of Canada constitute an industry vancouver. Vancouver No. 1, Alaska which employs thousands of Canadian workmen, pays out hundreds Canadian Consolidated Fraction, and of thousands annually in wages, uses hundreds of thousands of dol- Premier Fraction No. 2 claims, with an lars of Canadian material and contributes hundreds of thousands area of 103.77 acres. This group is yearly to the public treasury. On the grounds of common justice, owned by the Premier Extension Gold as well as on national grounds, these Canadian publishers ask that Mining Co., Ltd., and the Alaska Canait be made possible for them to compete with foreign publishers in 'dian Consolidated Gold Mining Co. Ltd. their own market on a fair basis. This is not now the case.

The industry undoubtedly suffers from unfair advantages extended to foreign publications coming into and circulated by the mil-director. lion in Canada. For instance, all the raw materials: paper, ink, engravings, art work, etc., are subject to sales tax and duties ranging by Mr. McGuire to the Premier Extenfrom 10 to 25 per cent, while the United States publishers bring sion Syndicate of Ottawa, of which the their finished product into Canada free of all duties, and import late "Foghorn" Macdonald, M.E., was taxes.

FLOOD OF

FOREIGN MAGAZINES.

The total circulation in Canada of United States magazines is over 50,000,000 copies yearly. For every copy of magazines printed and produced in Canada, the Dominion import more than eight copies of United States magazines. Added to these figures United States daily and week-end newspapers are flooding Canada to the extent for Vancouver, and Hon. E. Bristol. of between 15,000,000 and 20,000,000 copies annually. Together they K.C., M.P., of Ottawa. reach the staggering total of 70,000,000 copies annually. More than LONDON INTEREST 1,000,000 magazines, printed and edited in United States and catering to the tastes of readers in that country, enter Canada each week of the year.

Striking proof of the seriousness of this competition is found take up holdings immediately north in the discontinuance within the past few years of such Canadian publications as Canada Weekly, Canadian Courier, Woman's Century, sudden interest in London in mining Canadian Pictorial, Everywoman's World.

U.S. magazines are filled with advertising for the United States products, not Canadian. With 70,000,000 copies of these pub- and others at high prices. The New lications coming into Canada with over 4,400,000,000 pages of adver- York directors of Premier Extension tising, the volume of propaganda for U.S. products against those of conceived the idea of sending one of the Canadian manufacturer is colossal. An anomaly in this connect their number to London to dispose of tion is this: if any American publisher ships to Canada pamphlets Premier Extension for a large price. advertising his magazine, he pays fifteen cents per pound duty. On J. M. Iles, a leading mining engineer of the magazine, itself, however, sometimes three parts full of adver- London, and the writer were retained tising, he pays nothing.

In several cases United States magazines are merely super-catalogues for manufacturers of patterns. Some of this group are issued by publishers whose chief source of revenue is pattern sales. Canadian publishers cannot absorb publishing deficits in pattern profits.

U.S. publishers, with their larger purchasing power, are able the Woodbine-Vancouver Groups, they to, and do, monopolize the work of many of the best authors and ar- came to the conclusion that these protists, withholding it from Canadian publishers by forbidding contri- perties, with their similar geological butors to sell to Canadian magazines or newspapers. They are able, characteristics, and the mineralization also, to crowd the Canadian product off our newsstands, off our found on them fully warranted deships and off our trains, making it always difficult, often impossi- velopment with the possibility of provble, for the home-produced publication to get equal service and dis-

WOMEN DEVELOP MUCH BENEFIT

Given an equal opportunity, and freed from present handicaps, ment of large sums for undeveloped undoubtedly Canadian magazines would increase their sales and new prospects; but by development of ore Canadian magazines be developed. More Canadian pulp and paper in sufficient quality in the first place. would be used here instead of being shipped out of the country, and payment for it after its existence more employment would be available for Canadians in different has been placed beyond doubt. The affected industries and the Canadin government would receive a much larger revenue from postage and numerous other sources. And, through the development of Canadian industry, more magazine buyers would come to your newsstands.

The development of Canadian magazines would give Canadian ment for two years. authors and artists a wider home market for their fiction, articles and illustrations. Publishers would be enabled by circulation increases to maintain their present subscription prices. Unless they property was examined by a number of his experience in the ore occurrences found on the property associated with get relief, advances may be the only alternative.

Newsdealers who may fear a reduction in their sales and earnings, as a consequence of justice being granted to Canadian publishers, should take into account that Canadian publishers will naturally meet the demand with magazines that will be just as profitable to the distributor as the foreign publications he now selfs. two years ago opened out the mineral Furthermore, should United States publications find it necessary zone in a striking manner and disclos- The Red Bluff vein strikes northeast development of ore of economic value. to increase their prices, the distributor will make a larger margin ed valuable ore in the Red Bluff. and southwest. It is approximately Rich ore occurs in a large vein in of profit on those copies he does sell, thus keeping for himself the This ore was followed down by open parallel to the main veins of Premier that locality on which no development same earnings as now. This is admitted by one of the largest dis-cuts to a considerable distance below and B.C. Silver. As such it is probably whatever had been done.

A fair duty and sales tax would not bar any United States cuts were made up the Red Bluff and veins and subject to similar influences magazines. It may reduce the sale somewhat but every dealer can back along the strike for a distance of to which the mineralization is attributkeep up his profit by selling more Canadian magazines, newspapers, 750 feet., ore being found in all of able, especially where associated with books, etc., and also develop greatly the sale of British and French magazines and newspapers. Some of the largest U.S. publishers have already considered plans for publication of their magazines in Canada if conditions make it advisable.

If foreign publishers paid taxes, etc., in this country on the tons were piled on the dump and at- cut to its full width. This vein is same basis as Canadian publishers, that is on the amount of business they do in Canada, it can easily be seen they would pour in several who saw the showing. millions of dollars to the Canadian Exchequer.

by using that Christmas money gift in the finest way possible,—the purchase of an Orthophonic Victrola

IF SOMEONE paid you the very agreeable compliment of giving you a check for Christmas, saying, "Use your own judgment as to what to buy for yourself',-here is your opportunity to justify the good intentions of the giver.

Get yourself a Credenza!-the prince of musical instruments,-an Orthophonic Victrola.

A Credenza,—the gift that keeps on giving. fore ver and ever,-the gift that brings all music into your home, famous artists . . . hours and hours of happiness!

It matters not whether the amount you received be large or small. You will find that arrangements can be made with "His Master's Voice" dealers to deposit this as a first payment, and you may have your Credenza delivered in time for the New Year.

Remember, too, that the new Orthophonic Victrola is the famous instrument on which you have heard so much favorable comment. It, and it only, employs the principle of matched impedance, or "smooth flow of sound", a principle which may be used only by Victor Company, so that you may have the finest musical instrument in the world.
