ADDRESS GIVEN BY INSPECTOR

Parent - Teachers' Association Holds Meeting Last Night and Attends to Business

LARGE ATTENDANCE

Recommendations of The School Survey Explained by H. C. Fraser

The regular meeting of the Prince Rupert Parent-Teachers' Association was held in the Booth School auditorium last evening. The president, Mrs. Arnott, was in the chair and there was a fine turnout of parents and teachers.

Business was attended to expeditiously, the chief item of interest being the whist and bridge drive arranged for March 5. Mrs. Winslow has charge of the arrangements.

Mrs. Fuller has been appointed convenor of the social committee and Mrs. McMillan convenor of the program committee.

A vote of sympathy was passed to Mrs. Foss on her bereavement.

A feature of meetings in the future will be community singing.

Mrs. H. C. Fraser delighted the audience with the solo "Little Pink Rose" and as an encore sang "A Requiem." Mrs. Harlow was accompanist.

Later Mrs. Harlow sang "Sylvia" and as an encore "I Heard You Pass by." Mrs. Fraser accompanied her.

School Survey

The address of the evening was then given by H. C. Fraser on "The School Survey." The work itself is a voluminous composition of over 500 pages and deals exhaustively with the B.C. system of education. Mr. Fraser gave a very interesting resume of the work, and his audience agreed that there was little left in the system that the surveyors had not covered.

Particularly interesting were the comments on the new system advocated by the Survey. This would divide the school life into three parts — the elementary school for children from 6 to 12 years of age, the middle school for those of 12 to 15, and the High School for those of 15 to 18, at which age university work would begin.

Middle School

The establishment of the middle school would particularly benefit those pupils who do not wish, for various reasons, to attempt the entrance examination, failure in which at present so often is regarded as damning evidence that the pupil is no scholar.

The speaker also reviewed the Survey's Report on the Prince Rupert schools, the tendency to departmentalized school system, the value of manual training and domestic science, the need for consolidation of rural schools, the suggested doing away of free text books, the improvement of writing in the school under the present system, and the tendency to substitute an accredited system of promotion instead of the examinations, which at present are such a strain on pupils, and indeed somewhat of a nuisance from the teachers' point of view.

Intelligence Tests

It is to be hoped that an opportunity may be accorded Mr. Fraser to speak at a later date on "Intelligence Tests," a remarkably interesting subject, now well past the experimental stage, and which based on recognized laws, provide many startling results, not always gratifying to those undergoing the test.

A very hearty vote of thanks was accorded Mr. Fraser for his address and the meeting adjourned for the little less interesting part of the program—refreshments.

LAND ACT

Notice of Intention to Apply to Lease Land

In Queen Charlotte Islands Land Recording District of Prince Rupert, and situate two and one-half miles west of Alford Bay, Skidegate Inlet.

TAKE NOTICE that B.C. Fishing & Packing Company, Limited, of Vancouver, B.C. occupation Salmon Canners, intends to apply for a lease of the following described lands:—

HOSPITAL BUSY ALL THE TIME

Patients Had to be Prematurely Discharged to Make Room for Others Coming

The hospital is very busy at the present time with a preponderance of male patients and an unusual number of operations it was reported to the board last night by Miss Jean Harrison, R.N., lady superintendent.

President Campbell supplemented the report to this effect by stating that even yesterday it had been necessary to have doctors discharge patients in order to let others in and every available accommodation in the hospital was taken up. In view of present conditions, Mr. Campbell was of the opinion that the board would shortly be faced with the problem of extending facilities.

Miss Harrison reported that one student had finished her course of training, one probationer had resigned and two new ones had been admitted.

DRYDOCK BUSY

Steel Arrives for New Okanagan Lake Power Craft

Work preparatory to the building of the large power boat at the local dry dock for service on Okanagan Lake has been started. The first steel for the job arrived from the south yesterday and actual construction will start without delay as the vessel has to be ready for service this coming summer.

The freighter Canadian Rover has completed annual overhaul and installation of winches at the dock but will remain here until next Wednesday when she will proceed to Ocean Falls to pick up her schedulle in the Ocean Falls-California paper carrying service.

The next boat to go on the pontoons at the dry dock will be the Prince John for which a new shaft, to replace that broken at Queen Charlotte City recently, arrived yesterday. Already annual overhaul of the John is proceeding.

The Prince George, which has been in the dry dock all winter, will leave the plant about the middle of March to relieve the Prince Rupert which will then be taken in for annual overhaul.

PREPARING TO ERECT TOTEM

Will be Placed on Hill Opposite Bank of Commerce and Walks Constructed

MEN NOW AT WORK THERE

Pole Nearly Forty Feet High is One of Finest in Northern British Columbia

Men are at work preparing the place for the erection of the totem pole purchased by Vice-president Dalrymple when he was here about a year ago. It is to be placed on the small hill opposite the Bank of Commerce on Second Avenue. A path leading to it is being constructed from the walk at the corner of the C.N.R. office building near the engineer's office. It winds up the hill and will also connect with another path from Second Avenue.

The pole will be set in cement in the centre of the mound and a wooden platform is to be built around it. The top of the hill is being levelled, sufficient to allow of this being done.

From Upper Naas

The pole, which came from Gitlakdamix on the Upper Naas River, is surmounted by a wolf and the carvings below tell the story of the origin of the family. It is in good state of preservation, having been overhauled and repaired and painted by an expert, old Fred Alexcee of Port Simpson, an Indian who has done a great deal of totem pole work and who understands the native coloring.

The pole was secured by W. E. Ellison, Indian agent here, with the idea of retaining it for the city. When Mr. Dalrymple was here he was shown the pole and at once agreed to purchase it and to have it erected. The plan is to have it ready before the arrival of the summer tourists as one of the added attractions of the city.

MANY LOCAL MASONS VISTING ANYOX TODAY

Some twenty-eight local Masons left on the Prince Rupert last night for Anyox with Hon. A. M. Manson, Grand Master for British Columbia, who will pay his official visit to Enoch Lodge this evening. The entire party will return to the city tomorrow morning.

Among those making the trip with Mr. Manson are S. E. Parker, Ald. W. M. Brown, Howard White, James Dick, Thomas McMeekin, Walter Longwill, Walter Maloney, W. D. Christison, E. Unwin, Frank Rice, G. P. Tinker, Mr. and Mrs. John R. Mitchell, Mr. and Mrs. S. Sims, D. Munro, Ald. M. M Stephens, W. H. Wilson Murray, R. R. Rose, Robert Stuart, Frank Dibb, S. Thomson, C. V. Evitt, C. H. Elkins, R. E. Benson, Frank Moore, H. R. Love, S. K. Campbell, R. F. McNaughton and R. V. G. Lepine.

PROTECTION OF HOSPITAL FROM POSSIBLE FIRE

Fire Chief D. H. McDonald, as deputy fire marshal for the province, had a letter before the hospital board last night suggesting extensive alterations in the interests of better fire protection at the institution. Members of the board considered the suggestions as a whole as a rather big order but referred the matter to the executive committee for investigation and report.

Among the recommendations were that new exit lights be installed, that the kitchen range be raised higher from the floor, that colored lights and an audible alarm system be installed, that extinguishers be placed in the x-ray department, that vertical shafts be extended through the roof, that wire extensions be made by no others than qualified electricians, that a safer electric iron extension be installed, that a fire alarm system be installed in the nurses' home, that automatic sprinklers be installed and that the present unwieldy stretchers be done away and the bed mattresses be fitted with canvas straps and loops to facilitate the movement of patients in case of fire.

Had 43 Boils And Carbuncles At One Time

Mr. Claud Melanson, Castleford, Ont., writes:—"In regard to your remedies I have to say that B.B.B. was the only medicine I could get to relieve me of my boils and carbuncles.

I had forty-three at one time, and my doctor told me to take

Burdock Blood Bitters.

The first bottle I took gave me such great results that I took three more, and after I had used them I was completely relieved of my boils and carbuncles."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

HOTEL ARRIVALS

Prince Rupert

W. S. Henry and W. Angus, Smithers; J. W. Elliott, Plenty, Sask.; Dr. H. J. Meiklejohn and P. N. Andrews, Winnipeg; Walter Julian, Cassiar; John Duns, Vancouver; A. C. Hutchinson, Montreal; Mrs. R. M. Taylor, Vanderhoof.

Central

H. G. Alexander and 6A. Lambert, Somerville; Wah Tai and C. Wing, city.

The hospital board received a communication last night from the American Hospital Association announcing that Dr. H. C. Wrinch of Hazelton and H. W. Birch of Prince Rupert had been appointed a committee for this district in connection with the observance of National Day on May 12. A local committee will be later appointed by S. K. Campbell, president of the Prince Rupert General Hospital Association.

An Infallible Guard

HEIMDAL, according to Celtic mythology, was the perfect sentinel. His hearing was so acute that he could hear the wool growing on a sheep's back His eyesight was so keen he could see everything that happened even though it occured while he slept.

Advertising, if you use it properly, is an infallible sentinel for you. It guards you against fraud and inferiority. It protects you against making unwise and unsatisfactory purchases.

Merchants and manufacturers who advertise must give full value because they have good names to protect. The makers of well-known products and the stores that sell these products often value the names at millions of dollars. They cannot afford to jeopardize the worth of these names by selling any but good goods of full measure and fair price.

So, you can bank on this. Advertised goods must be as advertised. That is why it pays to deal with advertisers and to buy advertised products.

Advertising is your guard
