MUSEUM COLLECTION

Something over a year ago the museum board thought they been involved in a bitter political conmight secure a collection of Indian curios for the museum. They were offered a collection belonging to Mrs. Large, widow of the late Dr. Large of Port Simpson. However, the price of this collec- the big stick and he did not hesitate tion was so high that the board felt it would be difficult to raise the money with which to buy it, so it is being sent to England.

Now the museum has to start over again. Already there are who goes armed for the fray is apt to appointed principal of the public school a number of specimens, some of them very valuable, in the collec- find his foe similarly accounted. But if tion which is being steadily although slowly increasing. It is located temporarily in the Bank of Commerce building and can be seen during banking hours by any citizens wishing to view it.

The Board is not ready to purchase curios but is always glad to receive them in trust for the citizens of Prince Rupert as the one and without creating bitter anfoundation of a collection which some day it is hoped will be valuable.

Aviation is no new thing. Machines supported by air have been utilized for many years. They are usually called political machines.

NEW GOVERNMENT LEADER

Today we are publishing an article telling about the new leader of the provincial government. It is written by an able Brit- have good government." ish Columbia journalist, Charles L. Shaw, grandson of a former POPULAR WITHOUT BABY KISSING well known and able editor of the Victoria Colonist, Charles H. Lugrin. It is taken from the Financial Post, published in Toronto. that and, furthermore, has adopted it

As Dr. MacLean will probably be premier of British Columbia and stuck to it as his working policy before long, it is suggested that everyone should know who this in and out of public life, that he has man is and what he has done. We commend this article to the people of the district.

If something is not worth fighting about, it is not worth having. That's what the bull moose sings to his

COST OF CITY GOVERNMENT

We have been asked to publish some comparative figures in regard to the cost of administration of this city compared with others. Nanaimo, at the last Dominion census, had 8,900 population, yet the cost of administration of the city of Nanaimo is \$16,910 as compared with Prince Rupert's \$33,675. For protection of property such as fire and police, Nanaimo pays \$21,169 as against \$33,487 in liever in the padded stick perhaps, but Prince Rupert. For health and sanitation Nanaimo's bill is \$2,156 | MacLean is not a pussy-footer. He is against our \$19,943.

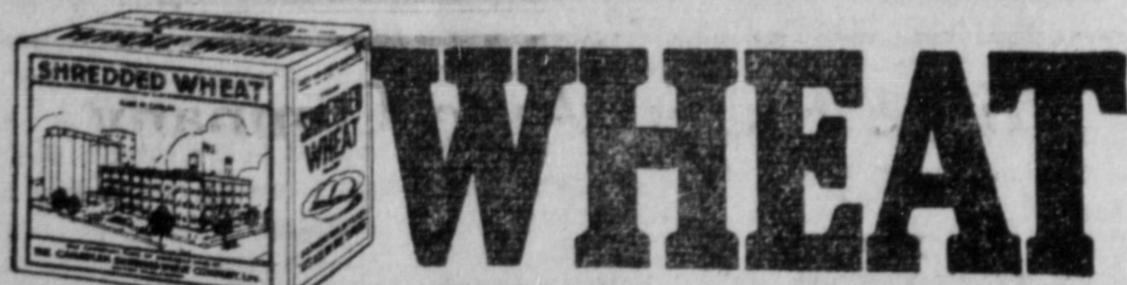

It is perhaps unfair to compare the public works of Prince Rupert with that of other cities but the figures given are Nanaimo \$49,102 as against Prince Rupert's \$209,221.

The total cost in Nahaimo is given as only \$89,337 whereas the total cost here is \$\$20,425.

We know nothing about the accuracy or otherwise of these figures but we are assured that they are correct. There may be Premier John Oliver always regarded factors which make this comparison unfair. If there are it would MacLean as his right-hand man. Whenbe interesting to know what they are. If it costs in Nanaimo only ever he left Victoria it was always Mac- cubic foot per second of water out of In Queen Charlotte Island Land Reten dollars a head and in Prince Rupert \$50 a head for city govern- Lean who was asked to carry on as act: unnamed stream which flows northeast cording District of Prince Rupert, and ment there must be something wrong. The difference in the two ing premier. Oliver was always a glutplaces seems too great. We should like to be set right on these figures because they do not seem reasonable, and we hope they are wrong.

Cheer up. If other men don't do it, it is because they have not the courage.

sane in handling our credit."

s relatively unimportant,

PAYING OFF ITS DEBT

"The important thing is that no other province in Canada is making anything debt," declared Dr. MacLean. "British Columbia is still in the pioneer stage and it's only natural that big borrowings would have to be made. The country needs to be opened up and we can't build roads, bridges, railways, schools ward Island! His parents, of Scottish and irrigation ditches by a touch of magic wand. But with all our borrowings the debt of the province is but was to become famous at the extreme ten per cent of the combined debt of all the provinces. And here's the big difference—our sinking fund is fifty per a farmer and the boy attended a rural cent of the amount of the sinking fund for all the provinces. Most of the pro- rying home after his school duties to vinces set aside only one half of one per cent each year for the retirement of debt. We lay aside enough to liquidate the entire debt at maturity of the loan. That is our basic policy in finance and it is the main reason for my optimism about the province's economic future.

In choosing MacLean as their leader, members of the Liberal party were not overlooking the personal element, and graduated from doctor to financier Friday, August 12, 1927 handling millions of the people's money the only member of the Oliver cabinet who in all his years of office had no troversy. MacLean is above all things a peace-maker and conciliator. His preto wield it upon occasion. So did some of his other colleagues, who once in while made the discovery that the man MacLean believes in the big stick at al he believes in having it comfortably padded. He believes in the political philosophy that a government should country efficiently without hurting any

> "So long as there is a party system the outs are bound to be in healthy opposition to the 'ins.' and vice versa but this sort of rivalry is purely of political nature and inevitable," said Dr MacLean not long ago. "But there is no justification for bitterness in politics, and where you have bitterness and spite poking their fingers in public affairs you cannot reasonably expect t

> It is because Dr. MacLean believes traversed a decade of uninterrupted cabinet service without an enemy and stronger politically than he ever was

> MacLean is popular and yet he is not of the hand-shaking, baby-kissing political fraternity. He is a quiet man and one of the least talkative members of the cabinet, and yet he is in no ser taciturn or exclusive. He may not have a great many words for everyone, but he has a smile for everyone and he does not spare it, and if you want a "Yes' or "No" answer from him you will get Quiet and untalkative and a about the most easily approachable member of the cabinet and that is on reason perhaps why people inside and outside the cabinet have made it habit to go to him with every conceiv-

able question and problem. TACKLED P.G.E. ENTANGLEMENT Throughout his long administration and had been provincial secretary when the job of railways minister was offered which has enmeshed the Pacific Great starred political child was given birth.

But tasks like these are not merely titles to glory in, for Dr. MacLean. He has a passion for making a serious responsibility of his many duties and when the P.G.E. problem was placed in IN THE MATTER of an application for fashioning the government-owned railway which has caused so much political Land Registry Office, Prince Rupert, B.C. sorrow in the past into a going concern. with a semblance of business manage-

ment about it. One of the things he did was arrange for the appointment of a board of directors embracing some of the most competent business men in the province and now, convinced that the successful future operation of the road lies in making it a part of one ing in. There is no danger of anything of the transcontinental system. Maclike that happening now and the peo- Lean and his associates are negotiating ple know it," Dr. MacLean told the with private interests for sale of the writer recently. "British Columbia is read and its extension northward into in a better position financially today the great Peace River country and souththan ever before, and that is simply ward to Vancouver. With these links because we have tried to be safe and established. Dr. MacLean believes the railway will be in a fair way to earn British Columbia's gross debt is about dividends-something which it has never \$80,000,000. That is a lot of money for done before. The P.G.E. is still the biga province with a population of barely gest single problem of the British Colhalf a million people, but Dr. MacLean's umbia Government and when MacLean leads his party to war-and that may not be so far off either-the battle cry will concern the fate of the P.G.E., on terms worked out in the mental laboratory of MacLean and the men he has gathered around him to put the road on its financial feet.

FROM P.E.I. TO B.C.

MacLean is a true Westerner in spirit and in outlook and yet his birthplace is in Canada's farthest east-Prince Eddescent, had come to Canada from Inverness a few years before the boy who western end of Canada was born, fiftyfour years ago. The elder MacLean was

school during the morning hours, hurhelp dad in the field. Later, he attended Prince of Wales College at Charlottetown and it was while there that he first conceived the notion to go west. He reached the prairies as a youth of nineteen, fortified by his nerve, his determination to get somewhere. and not a cent of money. He undertook the work which seemed most familiar to him at that period of his youth and instructed a class of half a dozen farm children. He liked the work and moved from place to place as the school terms passed, seeing new scenes, every year, the qualities that made him | meeting new people and inspired by the silent vastness of the prairies in their pioneer days.

FIRST AVAS SCHOOL TEACHER Then someone told him of British Columbia-the province of big timber, big trees, big rivers. He crossed the Rockies and found a job as teacher in a little school in a farming community along the Fraser River. His success as a tutor won promotion and he was at Rossland, then the centre of mining activity, with a population of several thousands. Teaching, he felt, did not offer him the scope for advancement that he sought, and so he contrived to have enough money to finance a medical course at McGill. He did not actually embark on his medical career until he had reached the age of thirty-two, but his personality and the reputation he had built for himself in Rossland man, won for him a large and profitable practice. He moved to Greenwood, another important mining town then, and he had finished his speech. breadened his activity by service as an alderman and mayor. These offices gave him the spark of ambition for public life and in the 1926 general election he was Liberal candidate for Greenwood

litical turnover which smashed the fortunes of Sir Richard McBride, William J. Bowser and other Conservative you find both rest and pleasure." powers, that gave MacLean his opportunity and paved the way for elevating Mr. Baldwin. the country doctor to the premiership of his province.

PREMIER BALDWIN IS RATHER A HUMORIST

Incidents Indicate Something of What British Leader is Like

Premier Baldwin evidently believes "What we have we hold."
