LET GEORGE DO IT

It is all right to let George do it if George is a better man and can do it better. That is why today the Saturday sermon is to]. be preached by unusual persons. As we live on the shore of the ocean that joins us to the Orient it is well now and then to look it is interesting to note that 40,000 cars, across the seas. CONFUCIUS ON NOBILITY

"The noble sort of man pays a special attention to nine points. He is anxious to see clearly, to hear distinctly, to be kindly in his tivity, women are beardless because of looks, respectful in his demeanor, conscientious in his speech, earnest in his affairs; when in doubt, he is careful to inquire; when in anger he thinks of the consequences; when offered an opportunity of gain, he thinks only of his duty."-Confucius.

LAO-TSZE ON ETBRNAL LAW

All things alike do their work and then we see them subside. When they have reached their bloom, each returns to its origin. Returning to their origin means rest or fulfillment of destiny.
