SENATOR CAMERON INTRODUCES BILL IN U.S. SENATE-PROPOSES TO LINK NINETEEN AMERI-CAN CAPITALS

WASHINGTON, Feb. 9. - (By John) Snure, Canadian Press Correspondent.) -Senator Cameron of Arizona has introduced in the Senate a bill to provide for the creation of a great highway commission for the Pan-American peoples. In offering the bill, Senator Cameron gave an explanation of it and said it was of vital importance to the United States "as well as to our good Canadian friends to the north and to our good friends, the Spanish and Portuguese people, to the south." said the purpose of the measure, which provides for a highway commission MCCORMACK headed by the Secretary of Sate, was to bring about construction of a highway linking the capitals of the nineteen' countries of Pan-America.

Senator Cameron pointed out that as matter of fact the project is not a new one and that more than a hundred years ago President John Quincy Adams and his secretary of state. Henry Clay, advocated a great highway through to South America. In South America, General Bolivar advocated a similar proposition and various presidents in this country have done including McKinley, Roosevelt and President Coolidge, Senator Cameron, said, is also much interested

It was held by the Arizona senator, that to link up all the capitals of the New World countries, from Ottawa and Washington to Buenos Aires, would do more to bring the western nations into accord than anything that could done. He pointed out that the late E. H. Harriman had a project to extend the Southern Pacific Railroad to South America and had the plan well advanced when he died.

According to Senator Cameron, engineers have studied the matter and hold it feasible. It is held that would give a tremendous impetus to travel by automobile. It was pointed fect figure, which so few tenors possess." National Operators, winners of the first out that many links of the proposed chain are already completed and that the milage would not be so great as imagined.
