## BRINGING UP FATHER

## SURROUNDED BY THREE OCEANS

HON. VINCENT MASSEY TALKS OF  
EXTENSION OF CANADA  
NORTHWARD

SAN FRANCISCO, Calif., April 2.—(By the Canadian Press)—Canada is adding another ocean to her avenues of transportation, Hon. Vincent Massey, Canadian minister to the United States, said in the course of an address before the Commonwealth Club here. Instead of thinking in terms of two oceans, Canadians were beginning to take a third, the Arctic, into their national consciousness, and they were building another gateway to the world's commerce at Fort Churchill, on Hudson Bay.

"Nature has been good to us," said Mr. Massey. "We are only beginning to understand how good she has been. But Nature has imposed upon us the test of geographical obstacles, and we have had to overcome these obstacles before Nature's trusteeship was relinquished."

### BARREN LANDS

"Our conflict with nature was on the western frontier at first. For years we called the west barren lands because there were no trees on them. The delusion of barrenness has gone. Recently an Alberta wheat field containing 1,300 acres produced a crop of 57 bushels of wheat to the acre."

"For a much longer period we considered the northern frontier barren land as well. This perhaps was because there seemed to be little else than rock in the north. Now we are finding in our northern frontier unknown treasure of minerals and incidentally we are solving one of our national problems. One of the great tasks we had in Canada was to widen the band of population from east to west and make it continuous. The great stretch of rocky country between east and west with every year is proving more productive. We used to think in terms of two oceans in Canada. Over the doors of our Parliament appears the words 'The wholesome sea is at her gates, her gates both east and west.' We are busy constructing another gate in the north—at Fort Churchill. The Arctic Ocean is no longer something we merely look at on the map but is coming to an increasing extent into our national consciousness. A provincial cabinet minister said not long ago that it would soon be possible to get into a sleeping car in Toronto and alight within the Arctic Circle. Incidentally our new gateway will bring western Canada 1,000 miles nearer to Great Britain than does any present avenue of transportation."

### FRIENDLINESS

"When I said 'our northern frontier' I might simply have said 'our frontier.' The southern boundary is not precisely a frontier but is rather a line where two separate civilizations meet in an atmosphere of friendliness and understanding. We are very much at home on either side of the line. You have made me feel so conscious of your hospitality and your friendliness ever since I came here and I am glad to feel that an ever-increasing number of visitors from your country are being made to feel welcome in Canada. An indication of how steadily the tide of visitors from the United States is flowing into Canada can be found in the fact that in the province of Ontario alone last year 300,000 autos were temporarily admitted from the United States."

## CATALLA BACK ON HER RUN

UNION STEAMER PRACTICALLY NEW  
SHIP FOLLOWING STRANDING  
IN NOVEMBER ON MIST  
ISLAND

Practically a new ship and evidently in as good a condition as ever, the crack Union steamer Catala, Capt. A. E. Dickson, arrived in port at 3:30 yesterday afternoon from Vancouver and waypoints, on her first regular call since last November 8 when she was wrecked on Mist Island, a couple of miles south of Port Simpson. The usual Sunday crowd to meet the vessel was enlarged considerably by many people desirous of making an inspection of the popular coast liner.

The salvage and repair of the Catala, which sank on the ledge of rock following her stranding, the tide flowing

in and out of her for about a month, constituted one of the biggest jobs of its kind on the coast in several years. Now her safe old handsome self again, the interior of the vessel had to be refitted throughout, her boilers and machinery were practically rebuilt and the hull had to be extensively replated. Opportunity was also taken to carry out certain remodeling of the vessel, the most notable feature of which was the carrying back of the promenade deck flush with the main deck aft. This operation results in the Catala now having one of the finest and most commodious decks on any coast steamship. It is unanimously admitted that a fine job was done in salvaging and reconditioning the vessel.

Besides Capt. Dickson, all her regular former officers are back aboard the Catala including Pilot W. W. Mounce, Chief Engineer T. Beattie, Purser A. W. Robinson and Chief Steward Bert Hebbard.

Passengers arriving on the Catala this trip included the following: Mrs. Krievsky, J. A. Underwood, H. Laxter, J. Gaudet, W. Flewin and W. Laing, for Prince Rupert; A. Noble, A. McKenzie, A. Sutherland, Mr. and Mrs. James McKay, C. Johnson, R. Watson, H. Olson, Miss Barker, Mrs. Barker, George Barker and L. Williams for Tucks Inlet; C. Tomlinson, J. M. Armour, T. D. Gibbons and G. Kustas for Stewart; Mr. and Mrs. J. C. Dandy, Otto Lantz, Mr. Reid and Capt. Cameron for Anxoy; W. B. Bower for Alice Arm, and J. P. Martin for Port Simpson.

The Catala, after making a call at Tucks Inlet cannery, sailed at 5 last evening for Anxoy, Stewart and northern ports of call and is due back here southbound tomorrow.

## WANTS CHANGE IN RATE CARRYING GRAIN

One of the resolutions passed at a recent convention in Vancouver of District "C" Farmers' Institute was as follows:
