DAILY EDITION

BEGINNING WELL

Today we are starting a new year. Let us clean the old men own it. The consumers put in slate and wipe off everything that is objectionable. Let us get the alleged owners. The price of that some move into our footsteps, some vim into our work and a spirit stock today represents excess values of determination into our every effort. The old is gone, let it go. The new year is before us. Make it a year worth while, something presents either that or the capitalizathat will stand out ahead of everything that has gone before and ed value of the right to exploit the let us do it together in harmony if not in unison.

CHANGING PRICE OF PAPER

On the front page is an announcement in regard to a cut in the price of the paper. This is part of a new policy of advancement in connection with the Daily News. We want Prince Rupert people to feel that the paper is theirs and that it stands for everything gentlemen touched the financial rocks that is best in the life of the city. We are trying to make it possible for all to read it. We suggest that an order be sent for it at cace if it is not already taken. We are doing our part and we ask the Duke of Marlborough, was the first people of the city to do theirs.

We are not complaining of the support we have been getting stock of the Hudson's Bay Campany, in the past. The people of the city have supported us splendidly, splitting it up in such manner as has What we ask is that we may be enabled very soon to make other improvements, such as are desirable in the representative newspaper heim of Oudenarde and Malplaquet of the northern part of the province.

Those who appreciate the work we are doing will back us by giving their support voluntarily. We shall try to put new life into Manufacturers who have in the past, the paper and it will help a lot if we are supported by all the been able to do so well at the public old-timer class, have passed their prime citizens

SHOULD BE POST OFFICE

One of the improvements Prince Rupert should get and get soon is a new post office. The recent Christmas rush indicated how inadequate are the present accommodations. The building is a period of the Nation's stress and storm? a continued and increasingly large item wooden affair liable to be burned down at any time and the mail with it.

With the site and excavation complete, one third of the cost of the general manager of Dominion Textile building is complete.

PEACE RIVER AGAIN

Again our attention is drawn to the Peace River Railway by about 291 per cent." an editorial article in the Edmonton Bulletin which reads as follows:

Premier Brownlee is by no means disposed to look upon the E.D. & B.C. system as a white elephant which should be got rid of at any price. He says there has been a marked betterment in the ed in that year? In March 1918, the the season in the various competitions 40 yards from the dam. Argument Against Any Advance Unite States Looking to Canada Presented by R. J. Deachman

Acting on behalf of the Consumers' League, R. J. Deachman appeared before the Tariff Commission recently opposing any advance in the duty on cotton. He went into the history of the cotton business in Canada and here is a small section of his argument which is extremely interesting:
