GEORGE CASEY'S SUGGESTION

A suggestion of George Casey that British immigrants be put to work on building the road between Prince Rup- tish government has just wound ert and Terrace or at any rate that steps be taken to bring up its contributions to the fund about the realization of the scheme is something that might be considered. Ten thousand men employed at this ham by the contribution of \$4,work would soon make a showing.

However, we suppose the provincial Government will pound equivalent of sums raised prepare specifications and let the job by contract. Then if by private subscription. some of those Englishmen are looking for work there should be a chance to give them a job and assisted immigration with that end in view might not be out of place.

We are not informed how long it will be before the survey will be complete or sufficiently near completion for a report but we assume there will be time before the contract is let to secure men for the job if they are needed.

OIL KING IN ALBERTA

Oil seems to have taken the place of wheat on the prairies today. Usua'ly at this time of year everybody in Calgary is talking crops, but today they are talking oil. ployed. Last week ten new oil companies were incorporated at Edmonton and more are getting ready. Bringing in wells by the Central Committee is \$4,seems more spectacular than taking off a crop, especially bioned through has been apporwhen it is a light one such as that which seems probable this year.

THANKSGIVING BROADCAST

The broadcasting of the thanksgiving service from their own vegetables. Westminster Abbey throughout Canada and the United States was a strictly modern feat. Unhappily it came at a time in the night when most people are as eep, but con- amount of the funds has been deditions were favorable and all who wished to remain up woted to moving out-of-work until two or three in the morning were able to hear the bor lacked to one which offered words of the Archbishop, the Dean and the singing of the employment, even on part-time choir. The use of short wave for the long distance recepterms. Since the reorganization of tion across the ocean indicates what the future may be for the administration machinery in that system of radio reception.

TWO GOLF LEADERS

Western Canada is very much in the golfing limelight this year with both the Canadian Amateur and Western Canada Amateur Championships being played over the Jasper Park Lodge course, Jasper National Park, Alberta, August 19-24, inclusive. Much organization has been necessary to make sure of the success of these tournaments and none have worked harder than C. E. Harvey, of Winnipeg, president of the Royal Canadian Golf Association (left), and C. W. Jackson, of Winnipeg, president of the Western Canada Golf Association.
