Free Movement of Natural-
ized Canadians Across
Line

WASHINGTON, April 8.—The supreme court of the United States ruled today that naturalized Canadians and other quota immigrants were prohibited from crossing the border to work or search for employment without presenting unexpired consular immigration visas.

Naturalized Canadians were declared not entitled under the Jay treaty of 1794 to cross the border freely regardless of immigration restrictions.

BAD DAMAGE TO HALIBUT VESSEL

Hull of Schooner Doric Prac-
tically Total Loss Following
Stranding—Now at
Dry Dock

The hull of the American halibut schooner Doric, which went on the rocks of Kinahan Island in a snowstorm last Monday morning, is practically a total loss and the engine may be seriously damaged as a result of the pounding the vessel received. The hull is of sawn frame lumber and, having been badly chewed up on the rocks, will be very difficult to repair.

As soon as the wrecked schooner was delivered to port from Kinahan Island by the Pacific Salvage Co. on Saturday afternoon, she was placed on the pontoons at the dry dock and is now in the hands of the underwriters. It has not yet been decided what will be done in the matter of repairs.

Who will be Victorious in the Forthcoming British Elections?

The political forces of Great Britain are mustering all followers under their banners to prepare for the great onslaught which will take place on May 20, when a record poll is expected. If the recent by-elections in the Old Country are any criterion, the outlook would appear bad for Stanley Baldwin and his Conservative Government. Mr. Ramsay MacDonald (left), leader of the Labor Party, is very confident of victory in view of the fact that ninety per cent. of his clashes with the Government and Liberal parties in the by-elections have resulted in his favor, while Mr. Lloyd George, war-time Premier and Leader of the Liberal Party, expects to turn the scale with his new unemployment platform. Premier Baldwin (inset) says nothing but continues smilingly on his way. He knows that his Government was responsible for the franchise recently given to the female voters in the Old Country and that means 5,000,000 more voters this coming May. It remains to be seen whether the new voters are fickle.

GROWING NATIONALISM
Difficulties Brought About by
Present Financial Condition
of the Country

VANCOUVER, April 8:—With a true national consciousness for the first time in its history, and yet with a central government that is recognized but is not given the necessary support by the provinces, the Chinese Nation today finds itself in a paradoxical position and must rely upon some of the other nations of the world to help it regain its feet. This is a brief summing up of the findings of the League of Nations mission to China. Joseph Avenel, Deputy Secretary-General of the League, who with his chief assistant, Henri Bonnet, made a tour of China lasting three months, gave an outline of his findings to a joint meeting of the institute of internal affairs and the League of Nations Society. Vancouver branches at the University Club Saturday night. As the distinguished guest of Sir Henry Thornton, who sent his car to accommodate the party on its journey across Canada, Mr. Avenel left by the Canadian National Railways Sunday night for Jasper National Park, where a day will be spent before proceeding to London. Weather Conditions in Southern Ontario Continue Bad and Death List Rises to Eight from Storms

TORONTO, April 8.—With rain falling in many districts of southern Ontario again today and thunderstorms predicted in some localities, the situation, brought about by diversity of weather conditions during the past week, continues to cause grave apprehension.

Reports indicate that the death toll through storm and flood remains at eight, but in some quarters over the weekend the property damage is set at \$1,000,000, which is believed to be conservative. Throughout the country innumerable bridges have been washed away, scores of washouts have disrupted railway service, telegraphs and telephones, while damage through flooded basements in factories and houses has been general in affected areas.

TASMANIAN FLOODS CAUSE MUCH DAMAGE

HOBART, Tasmania, April 8.—The death toll from floods continues to grow.
