

Pimples On Face Humiliated Her

Miss Frances Lodge, R. R. No. 8, Dunnville, Ont., writes:-"I used to feel very humiliated whenever I would go to town, on account of the breaking out of pimples on my face, caused from impure blood. Now all that has vanished and I have not been bothered since I took part of a bottle of your wonderful medicine Burdock Blood Bitters."

NEWSPAPER CORRESPONDENTS

The Daily News is always glad to publish letters of public interest but it does not like when a letter is written cri- Freedom of York to Be Conferred ticizing what has appeared in this paper that copies of the letter should be sent to other publications. This is discourteous. It is not good form and is not tolerated by newspapers generally. We do not mind being criticized but ob- Smuts, who will visit England this ciation Hall which has been closed ject to being singled out for attack and having it made a text for a general attack all round.

Very few letters have ever been refused publication in York, an honor which he accepted keeping order. Constables are also this newspaper even though some of them have been of somewhat personal nature. Occasionally in time of polit- has many friends in York. For the trial of strikers arrested in the ical combat a letter has been refused when it makes statements at a time when it is too late for a reply to be forthcoming.

If those who wish to criticize this paper would prefer to Rowntree were the guests of Gen- passenger department of the Grand take their criticisms elsewhere, we have no objection. That is their business. If they bring their criticisms to us, we expect that it will be to us only and any who abuse this privilege will be denied access to these columns in future. Old Country Has We do not care to be made a text for propaganda attacks. Several correspondents have at different times been guilty of this practice and now it must stop. We expect to be treated fairly and try to treat them fairly.

THE HALIBUT SITUATION

Whenever there is a contest going on a newspaper that tries to give all the news is always accused of being unfair or one-sided. For some time the only source of news in re- ner prepared with the aid of a tin + gard to the halibut situation was through the new selling opener and a corkscrew. I am afraid . organization and we availed ourselves of it and were told the corkscrew is necessary to help . of charges made for reading . that we were grossly unfair to the established dealers. Then the moment we try to tempered husband. summarize the present situation in as matter of fact and girl is clever the proper place for her fair a manner as possible, along comes some person and intimates that we are criticizing them unfairly. Our only higher-grade brain to be the manacriticism was that the halibut was being kept from coming ger of a house than to go to work at to this port and was being sold to private companies in some automatic machine." Ketchikan. The general manager of the new company resides in Ketchikan whereas it seems to the outsider as if Voyage of Ship he should be in Prince Ruport where most of the business in Voyage of Ship he should be in Prince Rupert where most of the business is done. We once criticized the removal of the general passenger agent of the railway from Prince Rupert as being detrimental to the place and we believe it is detrimental to the port to have its chief business managed from an alien and rival port.

Our correspondent, Mr. Lord, also criticizes a news item appearing in regard to the sale of salmon in Regina. As a matter of fact we feel he would have us publish nothing un- an unusually long passage of 67 days less it seemed to favor the particular movement that has his endorsement.

The little item of news came to the city in a social letter and was shown to the editor by a lady in the belief that it might be of interest here. He certainly thought so and his judgment was justified. It was so interesting that it brought a criticism from Mr. Lord and many others read it and wondered.

Today we are publishing the prices paid by dealers in and later Singapore. The total Ketchikan last Saturday. If the data had been available to length of the voyage was 13,090 us earlier we should have published it then. It is not in any sense criticism or propaganda but simply an interesting item of news, especially interesting to fishermen. If tele- Check Appears grams were not so costly we should be publishing the Ketchikan sales every day, not only at this time but throughout the fishing season.

What we wish to see is the bulk of the halibut coming to Prince Rupert and not being kept away by any influences, we do not care what they are. The whole city is suffering from the present condition. Owing to the peculiar conditions that have obtained we have refrained from expressing any opinion, hoping that an adjustment might be made, but there is no improvement. Now, we feel it is the

duty of everyone to speak out. The halibut men have a right to sell to anyone they wish. It is not our business and we do not wish to interfere and could not if we would. We want to see the fishermen prosper but do not want to see the rest of the city starved.
