The Most Responsive and richly concentrated markets of Canada are the cities where DAILY NEWSPAPERS are published

They contain 35.25 per cent. of the customers and do 65.57 per cent. of the retail trade of the whole Dominion. The new census figures reveal that 53.71 per cent. of Canada's population is urban.

These cities where daily newspapers are published are surrounded by supplementary—and just as desirable—markets, namely, suburban towns and country.

The Daily Newspapers have always given the advertiser a wonderful contact with the Canadian market from coast to coast. During this autumn and winter, when the business tide will be slowly and steadily rising, the newspapers will stand out pre-eminently from all other advertising media.
