## Will Mrs. Simpson Wed Him?

PARIS, Feb. 18: (CP)-Le Matin newspaper reported today that Mrs. Wallis Warfield Simpson has no intention of marrying the Duke of Windsor.

"Persons in close touch with Mrs. Simpson affirm that she has no intention of remarrying," Le Matin said. "She is said to have repeated this many times to friends.

"Mrs. Simpson's financial position is such as to permit her to wait for some time before making a decision."

Dean Clement of University B.C. Discusses Today's Trends Of World Food Supply

### Many Problems

States Facts Last Night and Will Tonight Deduce Influences Which May be Expected

The discussion of world production and distribution of food supply and other matters pertaining thereto which was commenced last night in First Presbyterian Church by Dean F. M. Clement of the University of British Columbia and which will be continued tonight and tomorrow is of timely interest and one which should merit the attention of all sections of the Forced Landing attention of all sections of the community who profess to be concerned over matters of practical economic moment. Dean Clement, who specializes in agriculture from the economic standpoint, has a broad command and a large fund of current information of the subject, it was made apparent last night. He spoke for well over an hour and all he had to say was listened to with rapt nterest. Having last night discussed the trends yesterday. Neither were injured, in Great Britain and European countries in regard to their food supplies, Dean Clement will tonight develop the influence which may be expected in Canada and British Columbia as a result of

At the outset last night, Dean Clement said that he would have liked to see a more complete cross-section of the community, including the unemployed and those in various walks of life, at the lectures.

Dean Clement then proceeded to discuss what had taken place in Britain in more recent times in the handling of problems of food supply. As it had been for the past centuray and a half, Great Britain was still the market of the world today. Although it had Dominion Not To Rev. Frank Hardy of Ocean but three percent of the world's There is a notable improvement Falls was elected chairman of population in 1930, yet it had made in business in the United States, Prince Rupert Presbytery of the 99 percent of the world's purchases says G. Portugal Alone Remains Aloof From Non-Intervention Efforts to Which Twenty-Six Nations Have Been Piedged-All Volunteers Banned by France

LONDON, Feb. 18: (CP)—Insurgent victories dotted of the Spanish civil war map today as Generalissimo Francisco Franco's men were hurled against government troops in mass offensives southeast of Madrid. A triple air attack left many dead and wounded in the streets of the Spanish capital. These had been the first air attacks

since January 6. The first two raids were on the outskirts of the Signs Decree city, taking ten lives, but the third was more centred and proved more fatal to civilians.

While the civil war raged with renewed intensity, Portugal remained aloof from intervention efforts in London, again refusing to join twenty-six nations in a plan to stop foreign help from reaching Spain.

In France President Albert Lebrun signed a decree prohibiting Frenchmen from joining either side in the war. Troops are being sent to the Franco-Spanish frontier to blockade movements of fighting men or materials into

The general ban on foreign volunteers for Spain goes into effect Saturday at midnight. An estimate last night said that at least 100,000 foreigners were fighting on either side in the Spanish civil war.

Severe fighting concentrated around the siege of Madrid as the conflict entered its seventh month. Officials of autonomous Catalonia meanwhile promised common action with the Spanish government in effecting a unified loyalist defence command. The Spanish government has armed itself with fresh powers in this connection.

Three British destroyers left Plymouth yesterday for the Mediterranean, their funnels painted red, white and blue to made them distinguishable against air attack.

## Ten Workers on Golden Gate Plunge to Death as Scaffold Of Giant Span Drops Into Bay

SAN FRANCISCO, Feb. 18: (CP)—Four investigations have been launched into the two-hundred foot death plunge of ten Golden Gate Bridge workers from a collapsing scaffold late yesterday. State officials declare that the scaffold had been twice declared unsafe. Bridge builders asserted that it was never criticized.

The ten-ton moveable structure, suspended on wheels beneath a giant span, fell when a wheel slipped from a girder on which it ran, tilting the scaffolding into its fatal and rending plunge.

The material carrier together with the ten men crashed through the protective net below.

The most of the bodies have not yet been recovered.
