## DIVIDING THE SPOILS

Hitler and Lenin have divided up Poland. It is easy to imagine those two bending over the map of the formerly independent country and apportioning it, each trying to get the lion's share of the spoils. Like Judas, Stalin, by his treachery, earned his reward. Hitler won it by means of frightfulness, by bombing women and children. Both belong in hell where it is probable they will go.

## WAR LIFE INSURANCE

It is a notable fact that, during the last war, every Canadian life insurance company paid in full death claims whether the insured was killed overseas or died in this country. In Canada there are four million policyholders and it is announced that war conditions will not affect policies. Policies will be honored in accordance with the individual contracts. That is really a gift to the nation.

## AN UNHOLY PACT

Right Hon. Winston Churchill, First Lord of the Admiralty in the British cabinet, looks upon the Soviet-Nazi pact as an advantage to the democracies. It has stripped Russian Communism and Nazi anti-Communism of their whole theme, of their credentials, of their means of appealing to the mind and spirit of man. He says that, instead of two separate philosophies, the world sees two rival gangsters joining forces, pooling their luck and trying to shoot their way out with any loot they can carry through the G-men of civilization.

Discussing the resemblances and the differences between Naziism and Bolshevism, Churchill compares them with the North and South Poles. "If you woke up in the morning at either you would not know which it was."

## NO DANGER HERE

There is no reason for Prince Rupert people to feel jittery over the possible presence of a German submarine in the neighborhood. The work of a submarine is to try to sink enemy ships. It does not attack land bases. Also it would not waste a torpedo on anything as small as the Prince John. It might possibly be looking for one of the Empress liners or one of our naval destroyers but fishing craft and such like would be beneath its notice. The cost of sinking them would be too great.

# Ontario House Ends Special War Session

TORONTO, September 23: (CP)—The special session of the Ontario Legislature prorogued yesterday after passing eleven wartime measures. One of the most important was the increased succession duty.

# Back To Standard Time In Dominion

**Change From Daylight Saving To Be Made Effective By Most Of Canadian Cities Tomorrow**

TORONTO, September 23: (CP)—Most cities of Canada will return to Standard Time tomorrow after having been on daylight saving during the summer.

# MACS NOW ON MARKET

The always popular MacIntosh Red apples are the feature today on the local retail market and are meeting with the usual popular demand. The British Columbia export apple market has been hit by the war this year through loss to considerable extent of European markets and the result is quite low prices at home, running fifty cents below last year. The crop is running to the larger sizes this year with the result that the box price of lower sizes is considerably higher.

Largely due to the adverse exchange, orange prices are rising steadily.

Vegetables from the south are about over but stocks of good quality from Terrace and elsewhere in the interior are now available.

A revision of the local retail price list shows general increases owing to war conditions. The egg price, due to increasing cost of feed, is mounting. Butter and flour are up. Meats are firm. Sugar is one of the few lines that remains unchanged.

# No Wheat Moving To Pacific Now

**Prairie Crop Is Being Rushed To Lakehead For Shipment Before Freeze-up**

There is little expectation of any wheat arriving at the local elevator from the prairies for some time. The wheat movement at present is almost entirely to the Lakehead, endeavours being made to rush the grain overseas by that route before the "freeze-up." Nothing except local wheat is at present moving into Vancouver.
