AN AMERICAN VIEW

Member of Audit Bureau of Circulations

A large part of The Forum, published in New York, Mc typical of a special line of magazines published in the H United States, devotes much of its space this month to M. showing how wrong Great Britain has been in her inter- Las national policies and in showing how strong Germany is and what she might do to Britain if she once got busy at the job. The magazine does not show open hostility but evidently caters to those who are always critical rather pet than constructive. It is in close touch with the opposition yas side of political life in Britian and sees little good in the Hall National government headed by Rt. Hon. Neville Cham- Ballinger berlain. Many Canadians hold similar views and so dot Total many Englishmen and Scotchmen. In summing up editorially the magazine says:

"Democracy need not despair. We have still all the English- and the French- and the Scandinavian- speaking, world and we have the two Americas. But democracy must watch two fronts. At the same time that we trade for peace we must arm for war. We cannot expect peoples who by nature or environment reject democratic government and are happier under a totalitarian state to be converted by our preaching to our way of life. Nor can we annihiliate them. Instead we must incessantly hold them at bay and keep them off our democratic preserves. . We must try, patiently, to devise formulas by which we can carry on trade, even with those nations with the most rigidly closed economies. It is at best a small planet and the only safety is guarded intercourse even between the

likes and the dislikes."

MUCH OF TRUTH

Vernon Bartlett, writing from England in the Forum. says in part: "If the British Empire is to survive she must carry through important domestic reforms to give her greater strength.

"Why Hitler will win, a prominent Nazi said to me, at the time of the Hitler-Chamberlin talk at Berchtesgaden, is because he has realized that the wealth of a nation is not the amount of gold hidden away in the vaults of its national bank but is the brains and muscles of its citizens.

"There are far too many Englishmen whose service to the state consists in sitting in Pall Mall clubs. If the nation is to be strong, she must develop a new conception of wealth and a new respect for labor. It is a disgrace and a shame that there should be people able to profiteer on the nation's food in time of peace or on her sandhags and shells in time of war; and while such conditions obtain. the merits of democracy are not so obvious that her citizens will go out and fight for it as a man. If we English want to pursuade the dictators that our democracy must be treated with a healthy respect, we should at once have a ministry of supply and a national effort which would bring back into employment, whatever the cost, hundreds of thousands of men who are now learning to drag out dismal and useless lives in hungry idleness."

It will be noticed that in Canada we are just appointing a committee of supply somewhat along the lines suggested and that the Federal government is proposing to make a much greater effort than heretofore to put the people to work. We admit they have been slow about it but its better late than never.

JIGARETTES FLY NORTH

Canada today pioneers on wings-and Imperial Tobacco products are only half a jump behind. For a typical "flying boxcar" load for the North includes such things as a dog team, sleeping bags, snowshoes, machine parts, ammunition, cigarettes. More freight is carried by air in Canada than in any other country, with the possible exception of Russia.

Yellowknife, the booming new mining base on Great Slave Lake in the Northwest Territories, is some 600 miles north of Edmonton. But, if you fly there, or to any other far-off point in the Dominion, you will find your favourite brand of cigarettes or pipe tobacco ahead of you. Today they are flown in. Yesterday they were packed in by canoe or dog team. Wherever there are stores - on fashionable street or newest frontier - there the products of the tobacco industry await your pleasure.
