Meeting Tonight - - -

Tonight in the City Hall there is to be a meeting of those interested in the promotion of the sale of war savings certificates or war stamps. So far the campaign does not seem to have been taken very seriously in Prince Rupert but the meeting tonight is the opening gun of a real war support movement. Every person who attends the meeting is an inspiration to the others. Selling is never! an easy job but the selling of war savings certificates is so important that we feel sure everyone will wish to participate. It is the next best thing to joining the forces! that are going overseas.

We shall be glad to record the progress made from day to day and we hope to be able to mark up big figures during the next week or two.

Bren Gun Effort - - -

We have just received from the John Inglis Co. Ltd. a small partfolio of protographs of the output of the plant including shipments of Bren guns for both the British and Canadian governments. The plant covers eight acres of land with nineteen buildings and has since 1858 been engaged in manufacturing machinery and tools for indus- WANTED TO RENT-Immediately, vant confused the whole issue by trial purposes. Five years ago the old company was taken! over by a new one of the same name and, while carrying on their old business, they have added to it the manufacture of ordnance for the Canadian and British governments. They have gradually expanded the plant until today the manufacture of Bren guns is only a small part of their work. Their commercial business has grown and the pictures are evidence of the completeness of the plant.

The machine gun plant is a huge place and the shipping and assembly rooms of the plant all indicate that real business is being carried on. One of the articles recently made for customers is a large marine engine for a British Columbia shipyard, a picture of which is included in the portfolio.
