TRYING TO THROW OFF AMERICANS

Japanese Attack United States Marines on Solomon Islands And Suffer Heavy Losses Themselves

WASHINGTON, Sept. 14 - In a determined attempt to dislodge United States marines from the Solomon Islands, the Japanese have landed troops and are using destroyers and planes in making attacks. A heavy toll has been taken of the Japanese attacking force and twenty enemy planes have been shot down.

The Japanese, however, are continuing their thrusts which the defenders are successfully stifling. The enemy have made successive air raids on the United States positions on Guadal Canal and Tulagi. An official communique has announced that five enemy bombers

and four fighters were brought down on September 9, four bombers on September 10 and six bombers and one fighter on September

Three Japanese destroyers shelled portions of the Solomon Islands. On September 11 United States bombers attacked enemy shipping and installations on New Georgia Island and one small Japanese ship was sunk.

The landing troops are still beng sought out at Guadal Canal. Reinforcements and have been landed during the hours of darkness at night by the enemy.

This British commando, face still blackened, stands on a compartment of one of the invasion barges, and shows how a leg of his trousers had been shot away during the raid on Dieppe, France. This unusual photo shows how the men looked when they returned. There is little laughter, and many a weary, drooping eyelid. In the background is another invasion barge, its camouflage plainly visible. The biggest raid of its kind, it was called a great success.

NAZIS ENTER CITY?

MOSCOW, Sept. 14 (CP)-After three weeks of frightful strugle on the immediate approaches to Stalingrad, the German offensive reached a new peak of ferocity today against the elastic Russian defence and the Germans claimed two penetrations of the city itself. By Russian accounts, however, the battered capital of the lower Volga region still flew the Red banners of battle with the foe checked once interior. more on the outskirts. The Germans said that Stalingrad had been entered in both southern and northwestern sections. The southern penetration was the first reported yesterday. The northwestern was claimed today.
