

HELP THE COAL DEALER

Consult your dealer regarding your needs:

Your dealer has many pressing problems. Let him know how much fuel you will need to last until May I, in addition to the amount you have in your bin. He can then organize his deliveries so that you will receive your share of fuel as it may become available.

Have your bins ready for the delivery man:

He is a busy man these days. Do everything possible to speed up his job. If you are getting both soft and hard coal separately, have the necessary spaces ready and cleared for each.

Clear all approaches to your bins:

Be sure that driveway, walk and outside steps are cleared of snow, and sanded if necessary; also clear walk and driveway. Use nearest windows. Keep inside steps cleared and free of boxes, pails, etc.

Accept whatever kind of usable fuel the dealer can supply:

Some types of coal are scarce and you can't afford to insist on specific grades or sizes as you would in normal times. Don't take a chance. Any kind of coal is preferable to none.

Take delivery when dealer can make it:

Your dealer is working with limited delivery facilities which must be used continuously throughout the winter, if every householder is to receive his share of available supplies. Don't wait, therefore, until you are almost out of fuel before permitting your dealer to replenish your bin. Let him make delivery when he can.

Save one ton in five

Get your copy of "Thirty-three Ways to Save Coal" from your dealer immediately.

Dealers are confronted with problems of both labour and supply. By co-operating in these ways with your coal dealer, you will help make things easier for yourself.

Back again in Prince Rupert ********* eating regularly, Arney looks back on those days, only three short months ago, wondering if it were all true.

After a short spell of leave in London which he thinks is "swell city," Arney left again for Canada arriving in New York the middle of December.

"Its good to be home again," he says, "but it's not like used to be. There was a time when I knew everyone I walking on the streets. Now I of Prince Rupert in the Provhardly know a soul!"

Arney's next draft will take him to another base where his experience gained in actual combat with the enemy will be of value to other men now in training for the same kind work.

"And am I itching to go?" said the gallant sailor!

CIVIC CENTRE

Defence. This met with considerable difficulty at first but, after several exchanges of correspondence and some hours of SKATING RINK discussion, the following proposal was arrived at and it being recommended to the association by its executive:

available to the Department of idea. lots on First and Second Avenues skating arena would pay. This lots from McBride Street. On hockey town. Maurice Brydges the major portion of this plot pointed to the case of Nanaimo the Department of National where within a single year skatational building which will be generally popular pastime. perated by the Y.M.C.A. War Services during the present war skating arena was much to be emergency. Within six months of desired, plans had gone too far however, the building will be its own use. The purchase price shall be fixed by a board of arbitration composed of one member of the Civic Centre Association, one from the Department National Defence, and a third member satisfactory to both parties. In this connection may say that the executive have carefully reviewed the plans for the proposed building and with the exception of one or two details, heartily approved them The Department of Nationa Defence has agreed to alter the plans in accordance with our ing suggestion. The remainder of the land not occupied by this proposed building will be reserved by the city for the use the Civic Centre Association This property will be large to accommodate up-to-date swimming pool which eventually form part of original building.

attempt should be made at the present time to construct swimming pool at the same time that the Department of National Defence are putting up the main recreational building. This would permit us to be equipped with a complete recrecapacity than anything we had above is rare indeed. previously visualized. Whether this plan will be possible during war conditions remains to be seen. There will undoubtedly be construction difficulties and the cost would be considerably than under normal peacetime conditions.

'At the present moment Percy Underwood is in town getting preliminary information for drawing the plans for our proposed swimming pool. Mr. Underwood is the architect who drew the plans for the building for the Department of National Defence and it is particularly appropriate that he should design the second unit Your executive will keep active in this matter and do what they
