Millions of babies have been raised on Carnation Milk formulas that their doctors have prescribed.

There are three big reasons . . First, Carnation Milk is as nourishing as milk can be - and it's irradiated for extra "sunshine" vitamin D. Second, Carnation's safe because it comes to you sealed and sterilized. Third, Carnation's readily digestible, because heat-treatment gives it a valuable soft-curd quality.

You don't have any milk worries when your doctor puts the baby on Carnation. Write for free book "Your Contented Baby". Carnation Co. Ltd., 470 Granville St., Vancouver.
