CANADA NEEDS HEALTHY RAILWAYS TO SERVE HER PEOPLE

over 190,000 Canadians Stranger It takes skilled manpower and lots of it to keep the railways rolling . . . to move passengers and freight (145 million tons of

it last year!) ... to carry the essentials of life and work to every community. So it's not surprising that the railways are among Canada's biggest employers. Last year their payroll totalled \$544,000,000.

Then, too, the railways are heavy buyers of so many things, from paper cups to locomotives. Their continued power to employ and to buy is therefore linked with the welfare of countless thousands of other Canadians

doing all sorts of jobs in all parts of Canada. The fact is ...

WOOD PRODUCTS

THE RAILWAYS ARE CANADA'S BIGGEST BUYERS

This advertisement is one of a series pointing ut the railways' key place in Canada's sconomy. As Canada's largest builders of rellway rolling stock and equipment, this Car & Foundry's eight modern plants turn out thousands of railway cars of every type, both passenger and freight. They are fully equipped to supply Canada's railways with

rolling stock of the latest type to meet the

growing needs of our expanding economy.

nost of which were grown, mined and manufactured in Canada. FUEL-For fuel alone, the railways spent \$113,000,000. They are Canada's largest fuel of the largest single items

purchased. STEEL - They spent \$21,000,000 for rail and track fastenings. There are 13,000 railway spikes in one mile of track; and the railways operate close to 50,000 miles of track.

There are 3,000 wooden ties to every mile of track. Last year for wood products, including ties, the railways spent nearly 30 million The railways also spent other millions for rolling stock of all types; for paper products,

tickets, timetables, booklets, stationery; for food, textiles and a host of other products. Adding taxes, duty, insurance, interest charges and other

items, the railways spend close to one billion dollars a year
